

HD Information Management System

SDC3

- HD Capture Device
- Dual Channel Support
- User Profiles
- On-Screen Device Status

Innovative & Intuitive

Data Management

SDC3

The SDC3 is an innovative and intuitive data management solution for the Operating Room. Perfect for education and teaching purposes, the SDC3 captures both images and videos in High Definition. With on-screen device status, user profiles, and HD dual channel recording, the SDC3 is perfect for capturing and managing information in the OR.

HD Recording

- Dual channel HD recording in native resolution
- Record 1080p in MPEG4/H.264, the HD video standard
- Picture-in-picture or picture-by-picture recording

User Profiles

- Customize user profile settings: prints per page, custom annotations, etc.
- Icon driven user interface
- Secure login by user

On-Screen Device Status

- Display status of surgical devices on all monitors: Insufflator, Shaver, Camera, Light Source, etc.
- Tailor which devices are displayed
- View custom surgical timeout on all monitors

Data Management

- Import & frontload patient data
- Internal archive for up to 500 cases
- Seamlessly store & edit using Studio3
- Save to USB, CD/DVD, Blu-ray, Network, or Studio3
