Stryker Personal Protection systems deliver protection, comfort, and ease of use you can trust in the operating room. Now available is the SurgiCool™ Personal Protection Hood, designed with our most breathable materials and built to the same quality you expect from the Stryker name.

Available with our exclusive PeelAway™ lens
Stay comfortable and confident in the Operating Theatre.

When you and your patients are better protected from transmission of infection, the result is unwavering concentration and confidence. The SurgiCool™ Personal Protection Hood features a new design that keeps you cool, comfortable, and protected.

- Provides full head and neck coverage to help safeguard against contamination, exposure to infectious bodily fluids, and transfer of microorganisms and particulate matter
- Lightweight design allows for optimal air flow and helps control moisture
- Semipermeable material allows sound to travel in and out freely
- Specifically designed for use with the Flyte® Personal Protection System helmet
- Stays in place by snapping into the Flyte helmet at top and with side magnets

---

A surgeon must always rely on his or her own professional clinical judgment when deciding whether to use a particular product when treating a particular patient. Stryker does not dispense medical advice and recommends that surgeons be trained in the use of any particular product before using it in surgery.

The information presented is intended to demonstrate the breadth of Stryker product offerings. A surgeon must always refer to the package insert, product label and/or instructions for use before using any Stryker product. Products may not be available in all markets because product availability is subject to the regulatory and/or medical practices in individual markets. Please contact your Stryker representative if you have questions about the availability of Stryker products in your area.
